SECOND CHANCE POLICY

Policy
Undergraduate students who leave John Jay College either on academic probation or as the result of an academic dismissal, for reasons other than academic dishonesty, who then transfer to a Justice Academic Program at a CUNY community college and complete at least 30 credits, earn a cumulative grade point average of at least 2.50, and receive an Associate Degree from a CUNY Justice Academy Partner will have the grades of their prior coursework at John Jay College treated as if it were transfer credit just as is the coursework that is being transferred from the Justice Academy community college. These students would, therefore, begin their second career at John Jay College with a clear grade point average slate, that is, with a grade point average of 0.00.

The Second Chance Policy is only applicable to the CUNY Justice Academy programs, also known as our 2+2 programs, which are Criminal Justice, Forensic Science, and Forensic Analysis.

Procedure
Students transition to the College through the Justice Academy Program. Students must present a final copy of the official transcript from the CUNY community college with the Associates Degree posted and evidence of 30 credits and a minimum 2.50 cumulative grade point average to the Office of Testing and Evaluation and then will be allowed to register for the next semester based on the Justice Academy process. The Office of the Registrar converts the prior John Jay College credits earned (D- or better) to transfer credits, thereby resulting in a 0.00 grade point average, along with the community college transfer credits.
